Online modules

Immunology and pathogenesis of respiratory infections - G. Rohde

The rational use of biomarkers in low respiratory tract infections - D. Stolz

Thursday, 21 June 2018

08:30–09:00	Registration
09:00–09:15	Course description, faculty introduction and objectives
09:15–09:45	Epidemiology of respiratory infections and tuberculosis - G. Sotgiu
09:45–10:15	Influenza - G. Rohde
10:15–10:45	Community-acquired pneumonia: severity and antibiotic treatments - F. Blasi
10:45–11:15	<i>Break</i>
11:15–11:45	Community-acquired pneumonia: treatment failure and complications - S. Aliberti
11:45–12:15	Challenges in the management of hospital-acquired pneumonia including ventilator-associated pneumonia - A. Huerta
12:15–13:15	<i>Lunch</i>
13:15–14:15	Workshop: How to assess and manage an influenza outbreak - G. Rohde
14:15–15:15	Workshop: How to assess, diagnose and manage complications of a low respiratory tract infection - S. Aliberti
15:15–15:45	<i>Break</i>
15:45–16:45	Report and group discussion on influenza and LRTI - G. Rohde, S. Aliberti

ERS course
Respiratory infections
21-23 June 2018
Lisbon, Portugal

Friday, 22 June 2018

08:30–09:00	Preventive measures for respiratory infections and tuberculosis - G. Bothamley
09:00–10:00	Workshop: How to assess and manage a tuberculosis outbreak - G. Bothamley
10:00–10:30	<i>Break</i>
10:30–11:30	Workshop: How to assess and manage a latent tuberculosis infection - G. Sotgiu
11:30–12:30	Report and group discussion on TB outbreak and LTBI management - G. Bothamley, G. Sotgiu
12:30–13:30	<i>Lunch</i>
13:30–14:00	Respiratory infections in the immunocompromised host - T. Welte
14:00–14:45	Chronic infections, bronchiectasis and nontuberculous mycobacteria - T. Welte
14:45–15:15	<i>Break</i>
15:15–16:00	Infective exacerbations of chronic respiratory diseases - A. Huerta

ERS course
Respiratory infections
21-23 June 2018
Lisbon, Portugal

Saturday, 23 June 2018

09:00–09:30	Tuberculosis: clinical scenario – C. Yoon
09:30–10:00	Tuberculosis: therapeutic armamentarium – C. Yoon
10:00–11:00	Workshop: How to assess and manage pneumonia in immunocompromised patients - F. Blasi
11:00–11:30	<i>Break</i>
11:30–12:30	Workshop: How to assess and manage a patient with multidrug-resistant tuberculosis – C. Yoon
12:30–13:30	<i>Lunch</i>
13:30–14:30	Report and group discussion on the management of pneumonia in immunocompromised patients and MDR-TB - F. Blasi, C. Yoon
14:30–15:00	Antibiotic stewardship - D. Stolz
	<i>Final remarks</i>
