ERS is proud to announce the fourth edition of the award-winning ERS Satellites, taking place online on March 2nd 2021. The event will offer a full-day programme covering four hot topics in respiratory medicine. Registration is free.

ERS Satellites have been using the latest in live-streaming technology since 2017 – delivering education to a global audience and supporting knowledge sharing and interaction on a virtual platform.

The programme for this year’s event is designed to support audience participation; allowing virtual delegates to ask questions and discuss presentations with speakers and chairs. All presentations will be chaired by specialist panels live from the studio.

**Note:** Due to COVID-19 restrictions and guidelines, this event will have a single host venue and there will be no onsite audiences.

The programme will be supported remotely by our national society partners:

Austria                      Turkey                    Portugal

Each topic will cover the following:

1) Disease mechanisms & understanding
2) State of the art (recent literature) & treatment approaches
3) Application of current knowledge & clinical perspective with cases
4) Horizon scanning and next steps

**Chairs: Daiana Stolz, Chris Brightling and Richard Costello**
(national societies will suggest additional chairs who will chair from their own country)
Asthma:
09:00-09:10 Introduction from the chairs
09:10-09:30 Mechanisms and physiology of asthma | Eleanor Dunican
09:30-09:50 State of the art in asthma | Celeste Porsbjerg
09:50-10:10 How to manage a patient with asthma | Master clinician
10:10-10:25 Horizon scanning: How to read trials | Guy Brusselle
10:25-11:00 Conclusion and Q&As lead by the chairs

COPD:
11:30-11:40 Introduction from the chairs
11:40-12:00 Mechanisms of COPD exacerbations - molecular perspectives and pathophysiology | Mona Bafadhel
12:00-12:20 State of the art in COPD | Timm Greulich
12:20-12:40 How to manage a patient with COPD - early identification and how to prevent progression | Master clinician
12:40-12:55 Horizon scanning: Where do we go next | Maria Rosa Faner Canet
12:55-13:30 Conclusion and Q&As lead by the chairs

Break 30 minutes

ILD:
14:30-14:40 Introduction from the chairs
14:40-15:00 Basic mechanisms of ILD | Killian Hurley
15:00-15:20 State of the art in ILD | Antje Prasse
15:20-15:40 How to manage a patient with ILD | Master clinician
15:40-15:55 Horizon scanning: Trial in ILD | Gisli Jenkins
15:55-16:30 Conclusion and Q&As lead by the chairs

Break 30 minutes

Chronic cough
17:00-17:10 Introduction from the chairs
17:10-17:30 Mechanisms and physiology of chronic cough | Matt Drake
17:30-17:50 State of the art in cough | Lorcan McGarvey
17:50-18:10 How to manage chronic cough patients | Master clinician
18:25-19:00 Conclusion and Q&As lead by the chairs

This high-quality educational event can be accessed free of charge by healthcare professionals from anywhere in the world. This is made possible with support from our sponsors.
